

ECF Modification Effective 2/1/09

In an effort to create a less complicated and more user-friendly docket sheet, the Western District of North Carolina will now be deleting erroneously and/or incomplete e-filed documents. To help us keep a clean docket, if you attach the wrong PDF file or make an error in e-filing, PLEASE DO NOT refile the document. Contact us and we will assist in replacing the document with the correct one. Depending on the circumstances, we may also guide you to properly refile the document. The clerk's office will notify counsel of record of any corrections and/or changes by regenerating the NEF. Contained in the docket text of the regenerated NEF will be what changes were made.

Along with this change you will notice certain events are no longer available for your use – Notice of Corrected Image/Document and Errata Sheet.

Additionally, the NOTICE of ECF Filing Error will no longer appear on a public docket sheet. If necessary, we will send a separate e-mail to the attorney(s) outlining the problem or deficiency.
